## HOW DOES THE PREDATOR WORK?

With the Predators optimized timing and fuel settings GM cars, trucks and SUVs will see gains of **15-20 REAR WHEEL HORSE POWER & 15-20 FT/LBS OF TORQUE** using premium fuel. Power gains are seen across the entire RPM range, not just peak power levels.

The DiabloSport Predator is designed for Power and Economy gains. Installation couldn't be any easier, just plug it into a vehicle's OBD-II Port under the steering column and follow the step by step instructions to install the tune!
